

FOR IMMEDIATE RELEASE

TEG's ReadyLXP product recognized as a 2021 Cool Tools Finalist

TEG listed by EdTech Digest among the nation's best and brightest innovators!

TEG's learning experience platform for teachers, ReadyLXP, was named a Finalist in the 2021 Cool Tools Awards from EdTech Digest.

Celebrating its 11th year, the Digest's program is the largest recognition program in all of education technology, recognizing the biggest names in edtech – and those who soon will be.

"The worldwide pandemic put education and training to the test, but remote learning and working—in many unexpected ways—ultimately brought us closer," said **Victor Rivero**, who as Editor-in-Chief of EdTech Digest, oversees the program.

ReadyLXP is a platform designed exclusively to make sustained, job-embedded professional development easier and more sustainable for school districts nationwide. "We have been working with teachers and supporting their professional development through technology for more than 14 years. With ReadyLXP, we've put all of our experience and knowledge into a simple, easy-to-use mobile platform that supports the competency-building work at the heart of all great professional development," said **Hugh Norwood**, Founder and President of Trinity Education Group.

While a new and innovative product, ReadyLXP is already in use by districts and state education agencies throughout the United States to support the professional development of educators. "ReadyLXP is field-tested and proven," adds **Lauren Little**, TEG's CEO of K-12 programs. "The research says mentoring and coaching is the clearest path to helping teachers achieve excellence in the classroom. And an effective teacher is the most important factor in a child's academic success outside of their home environment."

About ReadyLXP and TEG

TEG is an award-winning provider of educational technology solutions for states and large districts. With the creation and implementation of ReadyLXP, TEG has supported the improvement of effective teacher practice for thousands of educators throughout the United States.

About EdTech Awards

The EdTech Awards were established in 2010 to recognize, acknowledge, and celebrate the most exceptional innovators, leaders, and trendsetters in education technology.

Past winners include Claned, Soundtrap, Blackboard, Discovery Education, DreamBox Learning, Edmodo, Edthena, Flipgrid, Freshgrade, Promethean, Scholastic, Schoology, SMART Technologies and more.

This year's finalists and winners were narrowed from the larger field and judged based on various criteria, including: pedagogical workability, efficacy and results, support, clarity, value and potential.
